

ABC

Mock OSHA Inspection

Sign up for an **ABC Mock OSHA Inspection** of your jobsite(s). With more OSHA inspectors than ever before on the ground, make sure that you and your employees are ready for an unannounced inspection. OSHA citations average roughly \$1,000 for each violation. These visits can be made to your jobsite(s) at a time of your choosing and will be totally unannounced to the crew like a real OSHA inspection. Included in the visit are the following:

- Observation and photographs of the site from a distance prior to notifying the foreman of our visit (if feasible)
- A review of items required by OSHA's General Construction Requirements (29 CFR 1926 Subpart C)
- A review of the physical site for issues such as confined space, scaffolding, excavation, fire protection, emergency action plans, first aid, OSHA recordkeeping, general housekeeping, PPE, and more if applicable
- Employee interviews
- Photographs of issues identified
- A written report with recommendations

Prices are extremely discounted for ABC members and are based on jobsite size and locations. Discounts are offered for multiple site visits.

To schedule your Mock OSHA Inspection, contact Elizabeth at eyorio@abcwpa.org or 412.231.1446 x26.

DISCLAIMER: *Due to the daily changes in job conditions/environments, this inspection does not guarantee that you will be in compliance when an actual OSHA inspection takes place, nor does any advice or recommendations provided constitute legal advice.*
